FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: LERN Destination Protocol: BURN

- I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)
The proposed rule change is anticipated to increase expenditures for the Louisiana Emergency Response Network (LERN) by approximately \$429 in FY 19 and \$213 in FY 20 for the publication of the proposed rule. It is not anticipated that any other state or local governmental units will incur costs or savings as a result of this rule change.
The proposed rule adopts Louisiana Administrative Code (LAC) Title 48 – Public Health General, Part I – General Administration Subpart 15 – Emergency Response Network, Chapter 192 – Burn Protocols, Section 19201 – Destination Protocol: Burn. The Louisiana Emergency Response Network (LERN) Board is authorized to adopt protocols for the transport of trauma and time sensitive ill patients. The LERN Board developed a destination protocol for use by the LERN Communication Center to direct burn patients to the most appropriate burn center or emergency room for treatment. This rule codifies the burn destination protocol.
- II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
Implementation of the proposed rule will have no effect on revenue collections of state or local governmental units.
- III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)
Implementation of this proposed rule will have no cost or economic benefit to directly affected persons or nongovernmental groups.
- IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)
There will be no effect on employment. The establishment of the destination protocol for the burn patients includes the four existing state burn centers. Geography is the primary factor dictating the hospital destination. Therefore, this rule should have little to no effect on competition.
